

SIEB Teknik strengthens its sustainability profile with a comprehensive ESG report

SIEB Teknik has successfully completed the company's first ESG report in close collaboration with the Business Unit of Syddjurs Municipality and the CO₂ task force.

The report marks a significant milestone in the company's strategic work with sustainability and responsible business development. With the ESG report, SIEB Teknik gains a solid, documented foundation for both current initiatives and future ambitions within environmental, social, and governance areas.

Through this collaboration, SIEB Teknik has gained valuable insights, concrete tools, and a structured approach to ESG – an area

that is increasingly crucial for customers, partners, and the market in general.

“Completing our ESG report is an important strategic step for SIEB Teknik. It strengthens our position and better prepares us for future requirements. At the same time, the collaboration with Syddjurs Municipality and the CO₂ task force has been both valuable and inspiring,” says SIEB Teknik.

With the ESG report, SIEB Teknik takes active responsibility and sends a clear signal of a company working purposefully with sustainability, transparency, and long-term value creation.
